

Chiara Montagnani – Curriculum vitae

Scopus Author ID: 56115159400

ORCID: <https://orcid.org/0000-0003-2030-2535>

e-mail: chiara.montagnani@unimib.it

Current position: July 2024 – to date Tenure Track Researcher (University of Milano – Bicocca)

Past academic positions: April 2023 – July 2024 Fixed-term Researcher (University of Milano – Bicocca); January 2016 – October 2023 Postdoc (University of Milano – Bicocca)

Education: April 2012 - PhD in Botany applied to Agriculture and Environment (University of Genova); March 2008 - Master degree in Science of Natural Complex Systems (University of Genova)

Scientific disciplinary Sector: BIOS-01C Botany (BIO/03 Environmental and Applied Botany)

National Scientific Qualification to function as associate professor in Italian Universities (title acquired in 2023)

Research topics and activities

- Ecology and management of non-native plants: as one of the main threat to biodiversity, I investigate (2016 to date) the relation between environmental factors and the spread of invasive alien plants (e.g. analysis of the dynamics of the climatic niche, <https://doi.org/10.1007/s10530-021-02706-1>, and pathways of introduction and spread, <https://doi.org/10.1080/07352689.2017.1360112>, <https://doi.org/10.3390/agronomy12020423>).

Currently the spread of alien plants in urban environments is one of the main research topic (collaboration with University of Turin, La Sapienza, University of Molise and University of Modena and Reggio Emilia within the National Biodiversity Future Centre). As scientific consultant, I collaborate for the application of EU Regulation 1143/2014 with IUCN (2021, 2022), ISPRA and Ministry of Environment and with regional administrative bodies (2018 to date). Important scientific collaborations have been developed in the framework of national and international projects such as National Biodiversity Future Centre, COST Actions (COST ACTION FA1203 “SMARTER” - Sustainable Management of *Ambrosia artemisiifolia* in Europe) and interregional programmes (Interreg-Maritime Italy - France "ALIEM - action pour limiter les risques de diffusion des espèces introduites envahissantes en Méditerranée) I collaborated with national experts

- Conservation of endangered species: specialized in extinction risk assessment protocols, I joined the ‘Red List Authority’ for the New Red List of the Flora of Italy (2012-2016) for the Italian Ministry of the Environment (<http://www.iucn.it/liste-rosse-italiane.php>; <https://doi.org/10.1016/j.biocon.2018.05.030>). Currently (2018 to date), I’m a scientific consultant for the assessment of the conservation status of species protected by the Habitats Directive 92/43/EEC for the purposes of reporting ex art. 17 for ISPRA (Italian National Institute for Environmental Protection and Research). Since 2010, I have been collaborating with IUCN for the assessment of the risk of extinction of European and Mediterranean threatened flora (e.g., Red List

of European Vascular Plants <https://doi.org/10.2779/8515>, European Red List of Trees <https://doi.org/10.2305/IUCN.CH.2019.ERL.1.en>). Important scientific collaborations in the framework of, interregional programmes for the conservation of threatened Alpine and Mediterranean flora (GIREPAM - Gestione Integrata delle Reti Ecologiche attraverso i Parchi e le Aree Marine, NATURA 2000 ADM PROGRESS and BIODIVAM)

Recent teaching activities

Academic year 2023 – 2024 to date: Biological processes for biomass valorisation (LM 75- Master's degree in Sciences and Technologies for Environment and Landscape; University of Milano-Bicocca)

Academic year 2023 – 2024 to date: Integrated Environmental Sciences Lab (L 32 – Bachelor's degree in Environmental Sciences and Technologies; University of Milano-Bicocca)

Academic year 2022 – 2023: Field lab in Applied botany (LM 75- Master's degree in Sciences and Technologies for Environment and Landscape; University of Milano-Bicocca)

Supervisor of Bachelor's and Master's degree thesis

Most relevant contributions to international congresses
