All the information related to the educational objectives, the teaching organization, venues and didactic plans of postgraduate programmes are available in the individual regulations, which can be found on the University website at the following link <https://en.unimib.it/education/postgraduates/professional-masters-programmes>

### **Item 2**

#### **General Admission Requirements**

The admission requirements for each course are indicated in the **attached forms**.

**Simultaneous enrolment in a Postgraduate Programme and in another course of study held at this or other Universities is permitted within the limits established by the DM n. 930 of 29 July 2022 (for more information, you can check the link <https://www.unimib.it/servizi/studenti-e-laureati/segreteria-studenti/contemporanea-iscrizione-due-corsi-studio>. On the other hand it is not permitted the enrolment in a Postgraduate Programme to researchers employed at this University who hold an “assegno di ricerca”.**

Applications for admission to Postgraduate Programmes (with the exception of those specifically aimed at graduates in Medicine and Surgery or Dentistry or in the qualifying Health Professions) can be submitted also by undergraduates who, in Italy, obtain a qualification required for access by the first graduation session following the start of teaching activities and who, on the date of the selection procedures for admission, are only lacking the activities required for the final examination.

In case of admission, such students will be able to register on condition of meeting the deadlines stated, and undertaking to convey the award of the qualification that grants access in a timely manner through self-certification (notary deed) to be sent to this address [carriere.master@unimib.it](mailto:carriere.master@unimib.it).

If they do not obtain the qualification required for access to the postgraduate programme by the deadline stated above, they will lose their student status and, therefore, will not be able to continue attending or obtain certification. There will also be no refund of enrolment fees paid.

Undergraduates who are admitted on a conditional basis will be able to compete for any economic benefits, but they will be able to take advantage of them only after they have completed their postgraduate programmes. Therefore, any facilities to cover the partial or total first or second instalment will not constitute exemption from payment of the same, but will be paid at the end of the course, after obtaining the qualification.

**For postgraduate programmes aimed specifically for graduates in Medicine and Surgery or Dentistry or in the qualifying Health Professions, the deadline for obtaining the required qualification shall be the date of the admission application stated for each postgraduate programme on the attached forms (see Item 4).**

Only for courses in the medical or health sector, which include clinical, diagnostic and/or instrumental activities on patients in the training programme, only those who are in possession of a professional qualification may be admitted.

### Item 3

#### **Financial Benefits for Candidates with Disabilities under Art. 3 par. 1 of Law n° 104/92 or With Disabilities Equal to or Greater than 66%**

A total exemption from payment of enrolment fees is provided (except for a selection contribution of € 100.00 and the reimbursement of stamp duty) for one or more candidates with disabilities, whose disability is recognised under Art. 3, paragraph 1, of the Law of 5th February 1992, n. 104, or with a disability equal to or greater than 66%, who have passed the selection procedures provided by the chosen postgraduate programme and are usefully placed in the admission list, provided that the minimum number of students regularly paying the registration fee to the Postgraduate Programme is reached.

### Item 4
