**Note: For payment deadlines and further information see the University's website section regarding Specialisation Schools**

### LATE PAYMENTS

*Late payments are inadmissible for first-year students.*

Late fees will be charged for payments made after the deadlines. The amount due will be increased based on the how long payment is delayed after the deadline:

10% of the amount due for up to 60 day late payments,

15% of the amount due for over 60 day payments.

### PAYMENT METHOD

The installments must be paid entirely by the PagoPA payment notices, that can be viewed and printed from Online Student Registry (Student Services Online).

The registration of payments on the personal webpage takes place automatically within approximately 2 hours after the payment order.

There are three ways to **pay using PagoPA**:

1. **Print the payment slip** and pay it to any payment service provider of the PagoPA circuit (banks, tabacconists, etc. ...);
2. **Online payment:** using the appropriate link on the personal webpage of Online Student Registry (Student Services Online) students can access the online payment function. This payment method is possible for maximum amounts of 1500,00 Euros;
3. **Personal home banking** (*recommended method*): using the PagoPA or CBILL functions. For banks using the **CBILL system**, the interbank code or **SIA** code is: **1G192**.

**Note:** payments made using “method 3” with the University Card and exclusively via Scigno (PopSo internet banking combined with the student's badge) will be exempt from commission and have very high maximum payment limits.
