Article 7

(Admission tests)

The University of Milano - Bicocca declines any responsibility if technical reasons prevent the regular conduct of the interview.

Article 9

The submission of the application for admission, under the procedures referred to in art. 4, implies the acceptance by the candidates of the rules contained in this Call, failure to comply with them implies exclusion from the competition.

In particular:

- failure to submit a research project will result in non-admission and therefore exclusion from the examination;
- Failure to submit the research project, if requested (see "Description sheets XLI cycle") entails non-admission and therefore exclusion from the examination tests.
- The evaluation of non-eligibility, by the Selection Board, of the academic degree obtained abroad entails the exclusion from the selection process.
- If the documentation produced does not clearly indicate the duration of the academic studies and/or the eligibility of the foreign degree for access to the doctorate in the country of reference or the scale of value to which the degree and exam scores refer, the Selection Board may deny admission to the tests or not evaluate the degree or exam score.

Note: In the event of any inconsistency or discrepancy between the English version and Italian version of this Call, the Italian language version shall prevail.

- For identification and under penalty of exclusion from the competition, candidates, before the interview begins, must show an identity document, preferably the same one that was indicated during the admission phase.

If the need arises, the Selection Board may avail on external experts for a specific opinion. The appointment of experts can be arranged at the request of the Selection Board by the Procedure Manager.

Article 11

(Merit rankings and registration procedures)

The merit rankings of the eligible candidates are formed according to the decreasing order of the scores of the overall vote reported by each candidate and according to the sub-rankings of the project/topic. Rankings are published in the Official Register of the University and on the website <https://www.unimib.it/studiare/dottorato-ricerca/accedere-al-dottorato/graduatorie-rankings> .

Note: Only the merit rankings published on this website page shall be valid for admission to each PhD program. The publication is considered an official notification in all respects; accordingly, participants in the exams shall not receive any personal communication, except for filling a vacant position.

The merit ranking lists will also specify the enrollment procedures for the PhD Programs.

Note: In the event of any inconsistency or discrepancy between the English version and Italian version of this Call, the Italian language version shall prevail.

The Committee's judgement concerning the ranking is absolute.

The positions will be allocated for each Session as follows:

1. Assignment of positions for courses where there are only University scholarships/scholarships funded by other external Bodies without topic.

In this case candidates shall be admitted to the program according to the merit ranking order and up to the number of positions available;

2. Assignment of positions for courses where there are both University scholarships/scholarships funded by other external Bodies without topic and high Apprenticeship/project scholarship positions

In this case the merit ranking order will also indicate whether candidates are included in the sub-rankings relating to the high Apprenticeship/project scholarship positions for which they expressed a preference.

Please note that all candidates compete for positions relating to University scholarships.

- High Apprenticeship/project scholarship positions will be assigned according to the relevant sub-rankings
- if a candidate is eligible for both a University scholarship/scholarships funded by other external Bodies without topic and a project scholarship (therefore the candidate is included in the relevant sub-ranking), generally the project scholarship will be assigned first
- if more candidates are included in the sub-ranking for the same project scholarship the Committee will assign the scholarship according to the merit ranking
- If a candidate is the winner of more than one project scholarship (therefore the candidate is included in the relevant sub-rankings) the Committee will decide which scholarship to assign
- University scholarship/scholarships funded by other external Bodies without topic will be assigned according to the general merit ranking.

3. Assignment of positions for courses where there are University scholarships with topic and high Apprenticeship/project scholarship positions

For these courses the assignment will be according to point 2 of this article.

4. Assignment of positions/scholarships without candidates in the relevant sub-ranking

In this case the Committee will assign the positions according to the general merit ranking. To assign as many scholarships as possible the Committee may modify, if possible, the topic or project of the position/scholarship re-assigned. In any case a not chosen scholarship will be assigned within the same course. As regards the courses with several curricula, if the number of candidates admitted to a curriculum is lower than the number of scholarships available, the remaining scholarships shall be awarded to candidates competing for other curricula, according to their respective merit rankings.

The positions without scholarship will be assigned as for the University scholarships/scholarships funded by other external Bodies without topic.

In the event of equal merit, both for places with and without scholarships, the younger candidate shall prevail. For scholarships funded or co-funded by PNRR, in the event of equal scores, gender balance is considered, that is, the gender prevailing among the candidates placed in a higher position in the same sub-ranking is a minority. In case of further equality, the less senior candidate prevails.

Any vacant positions will be offered to those who hold a useful position in the sub-ranking, with priority and in the general merit ranking. Candidates will be contacted by e-mail from the PhD School Sector.

If there are vacant positions with scholarships, candidates who had not accepted places without scholarship shall also be contacted, according to their merit ranking.

The merit rankings relating for the Session I will be scored to assign the scholarships and positions not assigned by early August.

In case of successful placement in more than one merit ranking in the same session, the candidate must choose only one PhD program.

- The reassignment of vacant positions will also be carried out if any of the admitted candidates waives or lapses from admission to the Program by 1 December 2025. In the case of waiver or forfeiture within this deadline, the PhD student has no right to the accrual of the scholarship.
- If a candidate is offered a Session II position and one of the Session I simultaneously as a result of scrolling, the candidate must decide which one to accept.

The enrollment must be carried out following the instructions published on the University website at <https://en.unimib.it/study/doctoral-research-phd-programmes/applying-doctorate> . Failure to complete the enrollment procedure, within the terms indicated in the margin of the merit ranking, will result in the forfeiture of the right to admission to the Program.
