All the information related to the educational objectives, the teaching organization, venues and didactic plans of postgraduate programmes are available in the individual regulations, which can be found on the University website at the following link <https://www.unimib.it/didattica/master-universitari>

### **Item 2**

#### **General Admission Requirements**

The admission requirements for each course are indicated in the **attached forms**.

**Simultaneous enrolment in a Postgraduate Programme and in another course of study held at this or other Universities is not permitted. In addition, holders of research grants awarded by this University are not allowed to enrol in a Postgraduate Programme.**

Applications for admission to Postgraduate Programmes (with the exception of those specifically aimed at graduates in Medicine and Surgery or Dentistry or in the qualifying Health Professions) can be submitted also by undergraduates who, in Italy, obtain a qualification required for access by the first graduation session following the start of teaching activities and who, on the date of the selection procedures for admission, are only lacking the activities required for the final examination.

In case of admission, such students will be able to register on condition of meeting the deadlines stated, and undertaking to convey the award of the qualification that grants access in a timely manner through self-certification (notary deed) to be sent to this address [carriere.master@unimib.it](mailto:carriere.master@unimib.it).

If they do not obtain the qualification required for access to the postgraduate programme by the deadline stated above, they will lose their student status and, therefore, will not be able to continue attending or obtain certification. There will also be no refund of enrolment fees paid.

Undergraduates who are admitted on a conditional basis will be able to compete for any economic benefits, but they will be able to take advantage of them only after they have completed their postgraduate programmes. Therefore, any facilities to cover the partial or total first or second instalment will not constitute exemption from payment of the same, but will be paid at the end of the course, after obtaining the qualification.

**For postgraduate programmes aimed specifically for graduates in Medicine and Surgery or Dentistry or in the qualifying Health Professions, the deadline for obtaining the required qualification shall be the date of the admission application stated for each postgraduate programme on the attached forms (see Item 4).**

Only for courses in the medical or health sector, which include clinical, diagnostic and/or instrumental activities on patients in the training programme, only those who are in possession of a professional qualification may be admitted.

### Item 3

#### **Financial Benefits for Candidates with Disabilities under Art. 3 par. 1 of Law n° 104/92 or With Disabilities Equal to or Greater than 66%**

A total exemption from payment of enrolment fees is provided (except for a selection contribution of € 100.00 and the reimbursement of stamp duty) for one or more candidates with disabilities, whose disability is recognised under Art. 3, paragraph 1, of the Law of 5th February 1992, n. 104, or with a disability equal to or greater than 66%, who have passed the selection procedures provided by the chosen postgraduate programme and are usefully placed in the admission list, provided that the minimum number of students regularly paying the registration fee to the Postgraduate Programme is reached.

### Item 4

#### **Submission of Applications for Admission**

**Applications for admission** must be submitted starting from the day after the date of this Decree and mandatorily **by the deadline for applications for admission stated for each postgraduate programme on the attached forms.**

## Item 5

### Support Services for Candidates with Disabilities (DIS) or Specific Learning Disorders (SLD)

Candidates with disabilities (DIS) or with Specific Learning Disorders (DSA) may request the specific support defined by current regulations, in order to take the selection tests, if any.

To this end, interested parties are required to formulate their request during the admission procedure and to attach documentation attesting to their disability (*civil invalidity or certificate of disability*) or specific learning disorder to allow the University to evaluate the request and organise the service accordingly.

The certificate of disability must be:

- either issued by INPS, under [Law n° 118 of 30th March 1971](#) (*civil invalidity*)

- it must also have been issued by national health facilities or institutions or professionals accredited by the Regions and not more than 3 years old if performed before the age of majority of the candidate (Art. 3 Law n° 170/2010 and subsequent State-Regions Agreement of 24/07/2012).

**Failure to submit documentation on-line by the deadline specified in this call (see the attached forms) will not entitle an applicant to use the requested media.**

No later than the day before the examination date, candidates will receive an email from the University Service for Students with Disabilities and DSA at the email address provided when registering for the selection, with confirmation of the services run and all logistical and organizational information.

In the case of accompaniment and/or tutoring, the communication will also contain an indication of the place where to meet with personnel in charge.

Users are required to communicate any cancellation of service(s) of accompaniment and/or tutoring by sending written notice to this address [servizi.disabili.dsa@unimib.it](mailto:servizi.disabili.dsa@unimib.it).

In case of admission to the course, in order to benefit from the services provided by the specific University Regulations, it will be necessary (during the enrolment process) to make an appointment with the University Service for Students with disabilities and DSA in order to assess any types of support available on the basis of possibilities and availability of logistics / timing (these services are available from Monday to Friday, from 08.00 to 19:00).

#### **Item 6 Selection for Admission**

The publication of the selection date on the **attached forms** shall constitute notice for all purposes. **No communication shall be sent to any individual candidates.**

In order to participate in the selection, where the evaluation of qualifications alone is not provided, candidates must present a valid identity document, preferably the same one stated on the application form.

The selection committee shall be appointed by the Scientific Committee of the Postgraduate Programme.

For the evaluation of qualifications obtained abroad, the Selection Committee will declare their equivalence for **the sole purpose of admission to the Postgraduate Programme.**

Incomplete applications will not be accepted.

The enrolment fee includes the cost of issuing the original postgraduate programme diploma, stamp duty and insurance coverage.

In the case where the course is not held, any contributions already paid will be refunded, except for bank charges, in accordance with the regulations in force at the University.

In case of withdrawal of a participant before the completion of 25% of the training activity, the next excluded participant can take over. **Withdrawal does not entitle anyone to a refund of fees paid.**

<b>Teaching methods</b>	Blend/mixed mode The postgraduate programme is designed as a part-time training programme delivered in blended mode: in which periods of face-to-face teaching (off-line) alternate with activities performed on the digital platform (on-line) and devoted to design activities in collaboration with companies related to individual modules of the postgraduate programme. The work performed on the Slack digital platform allows for remote relationships (teachers, students and companies) exploiting the community element as a virtual laboratory.
