Article 2

General Admission Requirements

The admission requirements for each course are indicated in the **attached forms**.

Simultaneous enrolment in a Postgraduate Programme and in another course of study held at this or other Universities is not permitted. In addition, holders of research grants awarded by this University are not allowed to enrol in a Postgraduate Programme.

Applications for admission to postgraduate programme (with the exception of those specifically aimed at graduates in Medicine and Surgery or Dentistry or in the qualifying Health Professions) can be submitted also by undergraduates who, in Italy, obtain a qualification required for access by the first graduation session following the start of teaching activities and who, on the date of the selection procedures for admission, are only lacking the activities required for the final examination.

In case of admission, such students will be able to enrol on condition of meeting the deadlines stated, and undertaking to convey the award of the qualification that grants access in a timely manner through self-certification (notary deed) to be sent to this address carriere.master@unimib.it.

If the students do not obtain the qualification required for access to the postgraduate programme by the deadline stated above, they will lose their student status and, therefore, will not be able to continue attending or obtain certification. There will also be no refund of enrolment fees paid.

Undergraduates who are admitted on a conditional basis will be able to compete for any economic benefits, but they will be able to take advantage of them only after they have completed their postgraduate programmes.

Therefore, any facilities to cover the partial or total first or second instalment will not constitute exemption from payment of the same, but will be paid at the end of the programme, after obtaining the qualification.

For postgraduate programmes aimed specifically for graduates in Medicine and Surgery or Dentistry or in the qualifying Health Professions, the deadline for obtaining the required qualification shall be the date of the admission application stated for each postgraduate programme on the attached forms (see Article 4).

Only for programmes in the medical or health sector, which include clinical, diagnostic and/or instrumental activities on patients in the training programme, only those who are in possession of a professional qualification may be admitted.

Article 3

Financial Benefits for Candidates with Disabilities under Art. 3 par. 1 of Law n° 104/92 or With Disabilities Equal to or Greater than 66%

A total exemption from payment of enrolment fees is provided (except for a selection contribution of € 100.00 and the reimbursement of stamp duty) for one or more candidates with disabilities, whose disability is recognised under Art. 3, paragraph 1, of the Law of 5th February 1992, n. 104, or with a disability equal to or greater than 66%, who have passed the selection procedures provided by the chosen postgraduate programme and are usefully placed in the admission list, provided that the minimum number of students regularly paying the enrolment fee to the Postgraduate Programme is reached.

Article 4

Article 5

Support Services for Candidates with Disabilities (DIS) or Specific Learning Disorders (SLD)

Applicants with disabilities (DIS) or Specific Learning Disorders (SLD) may apply to use, in order to sit the selection tests, where required, specific media defined by the regulations in force.

To this end, interested parties are required to formulate their request during the admission procedure and to attach documentation attesting to their disability (*civil invalidity or disability certificate*) or specific learning disorder to allow the University to evaluate the request and organise the service accordingly.

The certificate of disability must be:

Failure to submit documentation on-line by the deadline specified in this call (see the attached forms) will not entitle you to use the requested media.

No later than the day before the examination date, candidates will receive an email from the University Service for Students with Disabilities and SLD at the email address provided when registering for the selection, with confirmation of the services run and all logistical and organizational information.

In the case of accompaniment and/or tutoring, the communication will also contain an indication of the place where to meet with the appropriate officer.

Users are required to communicate any cancellation of service(s) of accompaniment and/or tutoring by sending written notice to servizi.disabili.dsa@unimib.it.

In case of admission to the course, in order to benefit from the services provided by the specific University Regulations, it will be necessary (during the enrolment process) to make an appointment with the University Service for Students with disabilities and SLD in order to assess any types of support available on the basis of possibilities and availability of logistics/timing (these services are available from Monday to Friday, from 08:00 am to 7:00 pm).
