

Giovanni Coletti, born in Italy 04/01/1989

Studies:

11/07/2007 Grammar School graduation with an evaluation of 100/100.

15/07/2010 Graduated with honors in Geological Sciences at Genova University (Bachelor Degree)

26/10/2012 Graduated with honors in Geological Sciences and Techniques at Milano-Bicocca University (Master Degree)

02/03/2016 PhD in Earth Sciences at Milano Bicocca University.

Work experience:

04/2016 – 05/2016: Project reviewer for SOIL engineering srl. (Milano, MI).

09/2016 – 04/2017: Carbonate sedimentologist for CoNISMa (Interuniversity National Council for Marine Sciences).

01/2017 – 02/2017: Project reviewer for SOIL engineering srl. (Milano, MI)

09/2017 – 12/2017: Post-Doc at the Department of Geosciences of the Fribourg University (Switzerland).

01/2019 – 05/2019: Research collaboration with Haifa University and Noble Energy for oil exploration in the Eastern Mediterranean.

01/2019 – Present: Research collaboration with Fluminense Federal University (Rio de Janeiro, Brazil) and CNPq (National Council for Scientific and Technological Development; Brazil) for the study of Miocene carbonates of the Pirabas Formation

01/2018 – Present: Post-Doc at Milano-Bicocca University, researching on carbonate sedimentology, with particular focus on Cenozoic coralline algae, large benthic foraminifera and barnacles, and teaching fundamentals of carbonate sedimentology and of sedimentary petrography.

Research papers:

1) **Coletti G**, Basso D, Frix A, Corselli C (2015). Transported rhodoliths witness the lost carbonate factory: a case history from the Miocene Pietra da Cantoni limestone (NW Italy). *Rivista Italiana di Paleontologia e Stratigrafia*, 121: 345-368.

2) **Coletti G**, Hrabovský J, Basso D (2016). *Lithothamnion crispatum*: long-lasting species of non-geniculate coralline algae (Rhodophyta, Halimediales). *Carnets de Géologie*, 16: 27-41.

3) **Coletti G**, Vezzoli G., Di Capua A, Basso D (2016). Reconstruction of a lost carbonate factory based on its biogenic detritus (Ternate-formation and Gonfolite lombarda group - Northern Italy). *Rivista Italiana di Paleontologia e Stratigrafia*, 122: 1-22. Travedona

4) **Coletti G**, Basso D, Frix A (2017). Economic Importance of Coralline Carbonates. In: Rhodolith/Maërl Beds: A Global Perspective (pp. 87-101). Springer, Cham.
